

SOSCHARGER: POWER. YOURSELF.

Because you don't know where you'll be in an emergency, carry the device that's ready when you need it to be: *the SOSCharger.*

The SOSCharger is a unique emergency mobile-device charger. SOSCharger provides emergency charge utilizing its internal battery, while providing never-ending emergency power with its on-board generator. Power that you generate yourself!

SOSCharger® comes complete with a Micro-USB charging cable for charging the internal battery.

The SOSCharger includes a 1-year replacement guarantee. We handle support after the sale by our excellent online and telephone support.

Operation is easy:

- Pre-Charge the internal battery with your smart-phone's charger or a computer's USB port.
- Plug in your smart-phone's included cable (or supplied Micro-USB) into the full-sized USB port on the SOSCharger.
- Move the power switch to the on position and the smart-phone will begin charging.
- If the internal battery runs low, and you don't have access to external power, simply turn the handle to charge the internal battery.

One side of the SOSCharger is a blank palette, available for logo customization for custom merchandise sales, such as laser or screen-printing directly onto the unit.

Please contact your Staples Facility Solutions Representative for Further Information.
