Section 1- Identification						
(a) Product identifier						
Product name	Rechargeable Li-ion Battery	1				
(b) Other means of ider	ntification					
Product description	Model: 3.7V2200 Nominal Voltage: 3.7V Nominal capacity: 2200mAh Watt-hour: 8.14Wh Weight: 44g Dimensions: Max.: (66*37*1					
(c) Recommended use	of the chemical and restricti	ons on use				
Recommended use	LITHIUM ION BATTERIES					
Uses advised against	No information available.					
(d) Details of the suppl	ier of the safety data sheet					
Supplier Name	TOPWAVE CORPORATION	N LIMITED

Hazard Statements

This is a battery. In case of rupture:

Harmful if swallowed Toxic if inhaled

Causes skin irritation

Causes serious eye damage

May damage fertility or the unborn child

Appearance: No information available	Physical State: Solid	Odor: No information available				
Precautionary Statements-Prevention	Do not breathe dust/fume/gas/mist/v Wash face, hands and any exposed Wear protective gloves/protective cluse only outdoors or in a well-ventile Do not eat, drink or smoke when usi	any exposed skin thoroughly after handling s/protective clothing/eye protection/face protection n a well-ventilated area				
Precautionary Statements-Response	Immediately call a POISON CENTER or doctor/physician Specific treatment (see supplemental first aid instructions on this labe Get medical advice/attention if you feel unwell					
Eyes	IF IN EYES: Rinse cautiously with w contact lenses, if present and easy t call a POISON CENTER or doctor/p	to do. Continue rinsing. Immediately				
Skin	IF ON SKIN: Wash with plenty of soap and water If skin irritation occurs: Get medical advice/attention Take off contaminated clothing and wash before reuse					
Precautionary Statements-Storage	Store locked up Store in a well-ventilated place. Kee	p container tightly closed				
Precautionary Statements-Disposal	Dispose of contents/container to a	n approved waste disposal plant				
(c) Hazards not otherwise classified (H	NOC)					

Not applicable

(d) Unknown Toxicity

32% of the mixture consists of ingredient(s) of unknown toxicity

(e) Other information

Very toxic to aquatic life with long lasting effects

(f) Interactions with Other Chemicals

Section 4- First-aid Measures

Description of first aid measures

- After inhalation: Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately rinse with water.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: If symptoms persist consult doctor.
- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed No further relevant information available.

Section 5- Fire-fighting measures

(a) Suitable Extinguishing Media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

(b) Unsuitable extinguishing media

CAUTION: Use of water spray when fighting fire may be inefficient.

(c) Specific Hazards Arising from the Chemical

The product causes burns of eyes, skin and mucous membranes. Thermal decomposition can lead to release of irritating gases and vapors.

(d) Hazardous Combustion Products

Carbon oxides.

(e) Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6- Accidental Release Measures

(a) Personal precautions, protective equipment and emergency procedures

If the battery is released, remove personnel from area until fumes dissipate. Provide maximum ventilation to clear out hazardous gases. The preferred response is to leave the area and allow the vapors to dissipate. Avoid skin and eyes contact or inhalation of vapors. Remove spilled liquid with absorbent and incinerated. If leakage of the battery happens, liquid could be absorbed with sand, earth or other inert substance and contaminated area should be ventilated meantime.

According to 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

REPORT NO.: KS2002S00168B04

Version: V.1

(b) Environment precautions

Do not allow product to reach sewage system or any water source.

Inform respective authorities in case of seepage into water course or sewage system.

Do not allow to enter sewers surface or ground water.

(c) Methods and material for containment and cleaning up

If battery casing is dismantled, small amounts of electrolyte may leak. Collect all released material in a plastic lined container. Dispose off according to the local law and rules. Avoid leached substances to get into the earth, canalization or waters.

Section 7- Handling and Storage

(a) Precautions for safe handling Handling

Handle in accordance with good industrial hygiene and safety practice. Wear personal protective equipment. Avoid contact with skin, eyes or clothing. Ensure adequate ventilation. Do not eat, drink or smoke when using this product. Take off contaminated clothing and wash before reuse.

(b) Conditions for safe storage, including any incompatibilities Storage

Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Keep out of the reach of children.

Incompatible Products

Strong acids. Strong oxidizing agents. Strong bases

Product Information	Product does not present an acute toxicity hazard based on known or supplied information. In case of rupture:					
Irritation	Specific test data for the substance or mixture is not available. May cause irritation of respiratory tract.					
Eye contact	Specific test data for the substance or mixture is not available. Causes burns. (based on components). Corrosive to the eyes and may cause severe damage including blindness. Causes serious eye damage. May cause irreversible damage to eyes.					
Skin contact	Specific test data for the substance or mixture is not available. Corrosive. (based on components). Causes burns.					
Ingestion	Specific test data for the substance or mixture is not available. Causes burns. (based on components). Ingestion causes burns of the upper digestive and respiratory tracts. May cause severe burning pain in the mouth and stomach with vomiting and diarrhea of dark blood. Blood pressure may decrease. Brownish or yellowish stains may be seen around the mouth. Swelling of the throat may cause shortness of breath and choking. May cause lung damage if swallowed. May be fatal if swallowed and enters airways.
