Apple & Beats Product Information Sheet

The products referenced herein are “articles” and “consumer products” and therefore are excepted from the 29 CFR 1910.1200 Hazard Communication requirements. The European Classification and Labelling Regulation (EC) No 1272/2008 (CLP) and the Globally Harmonized System (GHS) of Classification and Labelling of Chemicals exempt articles from the Safety Data Sheet requirements. This Product Information Sheet is provided only as a service to our customers and is not based upon any requirement or regulation.

Product: (Li-ion) (“Product”)

- Lithium ion single cell batteries ≤ 20Wh, and > 20 but ≤ 60 Wh
- Lithium ion multi-cell batteries ≤ 100Wh

(For purpose of transport regulations, a single cell battery is considered a “cell” and a multi cell battery is considered a “battery” for classification purposes)

Models:

See specific products listed in this document under Apple/Beats Product Battery Information, manufactured after January 1, 2010.

GENERAL SAFETY:

This product, when used under reasonable conditions and in accordance with the directions for use, should not present a health hazard. The mixture is encapsulated in the product. Only if released due to use or processing of the product in a manner not in accordance with the product’s directions for use may it present potential health and safety hazards.

FIRST AID:

Ingestion:

Ingestion of a Li-ion battery is highly unlikely in the workplace, as the contents of a Li-ion battery are mostly solid, and any free liquid (ester-based electrolyte) that might drip out of a damaged battery is limited to a few drops. However, care should be taken not to touch fingers to mouth while handling a damaged battery so as to avoid any ingestion of contents. Do not induce vomiting. Wash out mouth with water. Get medical attention following potential exposure or if feeling unwell.

Inhalation:

Remove individual to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if individual is feeling unwell.

Apple & Beats Product Information Sheet

Skin contact: Flush contaminated skin with plenty of water. Remove contaminated clothing. Continue to rinse for at least 15 minutes. Get medical attention. Wash clothing before reuse.

Eye Contact:
Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 15 minutes. Get medical attention if irritation persists.

HANDLING & STORAGE:
Handling: Do not expose product to excessive physical shock or vibration. Do not disassemble. Should an individual cell in the product become ruptured, do not allow contact with water, unless the cell is overheating.

Storage: Store in a cool, well ventilated area. Storage above 100 degrees can result in loss of product performance, leakage, or rust. Do not expose product to open flame.

FIRE SAFETY: In case of fire where products are stored, flood the area with water as needed to control the fire on nearby ordinary combustibles. If any products are involved, water may not extinguish them, but will cool the adjacent products and control the spread of fire. Fire fighters should wear self-contained breathing apparatus. To control/stop a thermal battery event where only the product is involved, use plentiful amounts of clean/dry sand to immediately smother the thermal reaction and reducing smoke. This is most effective, if applied to cover the battery, especially in the first few seconds of the event. CO2, dry chemical, and foam extinguishers may also be used for small fires in areas where products are stored, but may not extinguish the involved products themselves. LITH-X (powdered graphite) or copper powder fire extinguishers, dry ground dolomite or soda ash may also be used (these materials also act as smothering agents).

DISPOSAL:
Apple products contain recyclable materials and should not be put into the municipal waste stream. Refer to the following websites for battery replacement and recycling options (http://www.apple.com/batteries/ replacements.html, http://www.apple.com/recycling/). Do not dispose of in fire.

TRANSPORTATION:
Apple/Beats product batteries have been successfully tested and comply with the

Apple & Beats Product Information Sheet

UN Manual of Test and Criteria, Part III, subsection 38.3, Revision 3, Amendment 1 or any subsequent revision and amendment. Product batteries have been manufactured under a quality management program as specified in 2.9.4 of the UN Model Regulations.

PERFORMED TESTS			RESULTS
38.3.4.1	T1	Altitude Simulation	Pass
38.3.4.2	T2	Thermal Test	Pass
38.3.4.3	T3	Vibration	Pass
38.3.4.4	T4	Shock	Pass
38.3.4.5	T5	External Short Circuit	Pass
38.3.4.6	T6	Impact/Crush	Pass*
38.3.4.7	T7	Overcharge	Pass
38.3.4.8	T8	Forced Discharge	Pass*

*-Applicable to cells only

Apple/Beats products with cells rated at 20 Wh or less, or batteries rated at 100 Wh or less, meet the requirements for transportation under:

- UN Model Regulations Special Provision 188
- International Civil Aviation Organization (ICAO) Technical Instructions and the International Air Transport Association (IATA) Dangerous Goods Regulations Packing Instructions:
    - 965 Section IB (UN3480, Lithium ion batteries)
        - Cells/Batteries will be offered for transport at a state of charge (SOC) not exceeding 30% of their rated design capacity.
    - 966 Section II (UN3481, Lithium ion batteries packed with equipment)
        - Cells/Batteries greater than 2.7 Wh will be offered for transport at a state of charge (SOC) not exceeding 30% of their rated design capacity.
    - 967 Section II (UN3481, Lithium ion batteries contained in equipment)
- International Maritime Organization (IMO) Special Provision 188
- Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR) Special Provision 188
- U.S. Department of Transportation (DOT) 49 CFR 173.185(c)
- Canadian Transport of Dangerous Goods Regulations (TDGR) Special Provision 34

Apple & Beats Product Information Sheet

Apple/Beats products with **cells rated greater than 20 Wh but less than or equal to 60 Wh**, meet the requirements for transportation under:

- UN Model Regulations, PI 903
- International Civil Aviation Organization (ICAO) Technical Instructions and the International Air Transport Association (IATA) Dangerous Goods Regulations:
    - PI 965 Section IA (UN3480, Lithium ion batteries)
        - Cells/Batteries will be offered for transport at a state of charge (SOC) not exceeding 30% of their rated design capacity.
    - PI 966 Section I (UN3481, Lithium ion batteries packed with equipment)
        - Cells/Batteries will be offered for transport at a state of charge (SOC) not exceeding 30% of their rated design capacity.
    - PI 967 Section I (UN3481, Lithium ion batteries contained in equipment)
- International Maritime Dangerous Goods Code (IMDG Code), PI 903
- Agreement Concerning the International Carriage of Dangerous Goods by Road (ADR), PI 903
- U.S. Department of Transportation (DOT) 49 CFR 173.185(c), 173.185(c)(1)(iv)
- Canadian Transport of Dangerous Goods Regulations (TDGR), CAN/CGSB-43.150 (PI 903), or under Apple Equivalency Certificate SU 152227

REGULATORY INFORMATION:

If hazardous materials are present in the workplace, Material Safety Data Sheets (MSDS)/Safety Data Sheets (SDS) are required by various national and international occupational worker safety regulations. However, MSDS/ SDS's are not required for articles (see 29 CFR 1910.1200 (b)(6)(v)). Exceptions also apply for consumer products as defined in 29CFR1910.1200(b)(6)(ix). An article is defined as a manufactured item other than a fluid or particle; (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g. minute or trace amounts of a hazardous chemical, and does not pose a physical hazard or health risk to employees.

GENERAL RECOMMENDATIONS:

CAUTION: Under extreme conditions, a risk of fire, explosion and burns exists. Do not short-circuit, crush, puncture, heat, incinerate or disassemble cells.

PRODUCTS WITH MULTIPLE BATTERIES:

For products with multiple batteries, the Battery weight indicated would be the sum of the weights of the individual batteries and the Watt hour rating would represent the maximum of the Watt hour rating of the individual batteries.
