To Whom It May Concern,

The stability testing of sanitizing and soap products consists of tests of the attributes of a product that are susceptible to change during storage and are likely to influence quality, safety and/or efficacy. The frequency of the testing of the subject attributes should be sufficient to establish the stability profile of the product in their intended markets.

Based on a review of stability data and regulations of the intended market⁽⁵⁾, relative to the products⁽¹⁾ in Table 1, an extension of expiry date⁽³⁾, is appropriate for the specific lots⁽²⁾ and it's intended market⁽⁵⁾ indicated. Any product that you have on hand, specific to the indicated lot in the intended market⁽⁵⁾, should be considered to be acceptable for its intended use through the extended expiry date⁽⁴⁾.

Table 1

Stock Code	Product Description ⁽¹⁾	Lot Number ⁽²⁾	Expiry Date ⁽³⁾	Extended Expiry Date ⁽⁴⁾	Intended Market ⁽⁵⁾
