Dust Mop and Dust Cloth Treatment

Dust Mop Treatment

Brighton Professional Dust Mop and Dust Cloth Treatment, when used on dust mops, replaces sweeping compounds and eliminates the dust created when using push brooms. It contains no wax or silicone, and does not make the treated surface slippery. When used as directed, it will not damage floor surfaces. Use this product to dust surfaces, such as asphalt tile, linoleum, vinyl, rubber tile, marble, ceramic, concrete, quarry tile, magnesite, cork and wood. Cloths treated with this product are ideal for dusting plastic, Formica® surfaces and chalkboards.
