- Installation hardware included

Dry Air Fresheners (Metered)

Air Fresheners

Brighton Professional Dry Air Fresheners combine quality fragrances and essential oils with state-of-the-art odor counteractants. They quickly eliminate and neutralize foul odor, cigarette smoke, decaying smells and more. Ultra-fine particulate spray spreads evenly. Treat large areas in second without fallout or stinging. Brighton Professional aerosol air fresheners are CARB and OTC VOC (Volatile Organic Compound) compliant and contain no ozone depleting materials. Brighton Professional powerful air fresheners come in a variety of fragrances.

Brighton Professional Metered Air Dispenser is an attractive, practical, multifunctional dispenser that is simple to program. It has a state-of-the-art chip technology, which allows complete programming with only three slide switches. Sensor stops normal spray operation when door is open, preventing unintentional discharges into the eyes or face. Flashing green light indicates dispenser is fully functioning. Versatile enough to be used virtually anywhere odors are a problem. Requires two "D" batteries (alkaline type).
