Surface Disinfectant and Deodorant

Surface Disinfectant and Deodorant is a unique blending of a phenol and a quaternary ammonium chloride. It is a germicidal, fungicidal, staphylocidal, virucidal, tuberculocidal and pseudomonacidal. It effectively controls mold and mildew on hard, nonporous surfaces. Surface Disinfectant and Deodorant is excellent for use in hospitals and homes. Disinfects and deodorizes hard surfaces, such as walls, floors, urinals, furniture, fixtures, toilet seats, diaper pails, examining tables, telephones, sinks, cabinets, garbage cans and more. The 360-degree valve allows can to spray upside down, making it easy to use on hard-to-reach places.

Physical Data

Physical Form: Colorless spray
Odor: Fresh/Clean
pH (as is): 10.0-11.0
Spray Pattern: Mist
Chlorinated Solvents: No
Contact Time: 10 minutes
%VOC by Weight: 66.0
Flammability: Flammable
Shelf Life: 2 years minimum
EPA Reg. No.: 33176-5-86226

Efficacy Data

Bactericidal Efficacy
Enterococcus Faecalis — Vancomycin Resistant (VRE)
Staphylococcus Aureus
Staphylococcus Aureus — Methicillin Resistant (MRSA)
Staphylococcus Aureus — Community-Associated
Methicillin Resistant (CA-MRSA)
Mycobacterium Bovia (BCG)
Pseudomonas Aeruginosa
Salmonella Enterica

Virucidal Efficacy
Human Immunodeficiency Virus Type 1 (HIV-1)
Influenza Virus Type A2/England Virus
Herpes Simplex Virus (Type 1 & Type 2)
Pandemic 2009 H1N1 (Swine flu)

Fungi and Mold/Mildew Efficacy
Trichophyton Mentagrophytes (Athlete’s foot fungus)
