

## CONCENTRATED ODOR ELIMINATOR

Sustainable Earth

By Staples™

**Fast-acting odor eliminator  
designed to combat  
your strongest odor issues**

## PRODUCT DESCRIPTION

Sustainable Earth by Staples™ Odor Eliminator (SEB63) is a safe, versatile, eco-preferable\* product that does not sacrifice performance. A nonstaining odor neutralizer and deodorizer for use in a pump spray container, it is effective against the toughest malodors in grease traps, drains, tile grouting, garbage disposals, dumpsters, portable toilets and other places where unpleasant odors are found. It can be applied like a cleaner, sprayed onto surfaces and then wiped away.

## FEATURES

- Highly concentrated to reduce waste and lower end-use costs
- Instantly removes sources of odors
- Effective on both oil- and water-based odors
- Leaves no sticky or soapy residues to attract soils
- Versatile formulation eliminates unpleasant odors
- Low odor and no lingering smells
- Formulated with enzyme-producing ingredients
- Fast-acting deodorizer and odor eliminator
- Meets SEGC 114 Sustainable Cleaning Product Design Standard

**Solubility in Water:** Complete

**Dilution Ratio:** 1:128

(One gallon of concentrated SEB63 Odor Eliminator makes 129 gallons of ready-to-use high-performance odor eliminator.)

## About Sustainable Earth by Staples™

Our exclusive eco-preferable\* line offers great ways to get the products your business needs and to lessen the impact on the environment. Every Sustainable Earth by Staples™ product meets our brand's highest environmental standards.

Plus, like all Staples® brand products, the quality is guaranteed. It's a real win-win for you — and the environment.

\*Compared to conventional cleaning products.

## Certification Definitions

Current environmental and sustainable standards are based on a process that may take a long time to complete. For cleaning products not included in the current environmental standards, Staples has adopted the SEGC 114 Sustainable Cleaning Products Design Standard. This industry-leading proprietary standard raises the bar by examining each product's innovation and identifying packaging and product prerequisites, as well as outlining preferred product testing methods.

All plastic containers used in packaging products display the Society of Plastics Industries' 3-sided triangular arrow to make recycling easier. The majority of our containers are readily recyclable and classified as 2:HDPE (High-Density Polyethylene), and some contain 25% post-consumer recycled plastic.
