

One Step™

Floor Cleaner and Restorer

For cleaning and restoring floors in a one-step process.

Item #	Description	Size	Units Per Case
BPR567001-A	One Step™	Gallon	4

Features

- Outstanding floor cleaner
- Restores plasticizers and moisturizers to the floor finish
- Removes scuffs and repairs scratches caused by heavy foot traffic
- Penetrates and lifts away soils while leaving a protective polymer behind
- Unsurpassed response to burnishing
- Concentrated so less product is used
- Improves any floor finishes black mark and scuff resistance
- Will not yellow or discolor
- Reduces the need for frequent recoating
- Prevents floor finish buildups caused by frequent recoating
- Use with low, high or ultra-high-speed buffing and burnishing equipment
- Clean and restore over 100,000 square feet of floor with each concentrated gallon
- Mop or use an automatic scrubber
- Meets industry guidelines for slip resistance

One Step™

Floor Cleaner and Restorer

A concentrated blend of both a cleaner and floor finish restorer. Produces a clean and rejuvenated floor when used with an auto scrubber or mop bucket system. No waiting for the product to dry. A thin coat of thermoplastic polymers is left on the floor surface during cleaning process. For best results, burnish floor after auto scrubbing to achieve maximum gloss. When used with mop and bucket, floor must dry before burnishing.

Physical Data

Physical form: Opaque, white liquid
Odor: Peach
pH (Concentrate): 8.5 - 9.5
pH (Diluted 1:128): 8.0-10.0
Film color: Clear and colorless
Freeze/thaw stability: Excellent
Odor index: Low
Shelf life: 2 years minimum in unopened container

Performance Data

Dilution ratio: 1:128
Specular gloss (60°): 85° minimum when floor is burnished
Burnish response: Outstanding
Slip resistance: Meets ASTM D2047
Sediment: 0.08% by volume, maximum
Solubility in water: Miscible
Finish compatibility: Excellent
Heavy metal content: Contains no zinc or other heavy metals
